Sania Mirza : Tennis Phenomenon

Sania Mirza is an Indian tennis sensation who at 18 year's of age became the first Indian woman to enter the fourth round of the US Open Grand Slam, battling physical problems as well as her own mechanical errors overcame 65th ranked rival Mashona Washington and became the first Indian in history to win a match at the US Open Grand Slam.

"I am over busy on the Circuit, flying around touring, whether in the US Open, Wimbledon Dubai, China, my life is lived at a hectic speed. That's why it was such a relief to finally meet a company like Myflat.

My flat rushed around me so much when I last came to play at Wimbledon I was made to feel like I was felt like I was part of the family thank you so much for all your help. I have no hesitation of recommending you to my friends and colleagues. I understand that the London property market is competitive, believe me competition is in my blood!"

THE LANESBOROUGH

In our view the Lanesborough has standards which are hard to live up to anywhere.

“Impeccable levels of service.”
